

LINE 1Q-2Q 2021

Hanwha Group

Founded in 1952, Hanwha is a FORTUNE Global 500 company and the 7th largest business group in Korea, comprising of 76 domestic affiliates and 351 global networks around the world.

Hanwha's business area included span aerospace & mechatronics, chemicals & materials, solar energy, finance, service & leisure, and construction. By integrating its growing number of affiliate enterprises worldwide, Hanwha is harnessing the power of sustainable, quality growth to continually increase the value we bring to customers.

Hanwha delivers energy to customers to
make our future
more vibrant and sustainable.

Hanwha Techwin brings you
security solutions
that deliver values beyond safety.

A leading global security company, Hanwha Techwin has built its professional expertise in the video surveillance business through its world-leading optical, manufacturing and image processing technologies, accumulated over 30 years since our first launch of a surveillance camera in 1990.

As the world welcomes the 4th Industrial Revolution, we are leading the market by taking advantage of next-generation technologies, such as Deep Learning, Artificial Intelligence (AI) and Business Intelligence (BI). We are also able to offer solutions tailored to meet the requirements of various vertical markets. By offering cybersecurity that customers can trust and rely on, we are growing as a total security solution company which provides high satisfaction and value, as well as real-life practical benefits.

Hanwha Techwin will continuously strengthen its development and marketing investments in the security business to drive future growth.

History

2012 ~ Current

- 2020 - Hanwha Techwin's 30th anniversary, Wisenet7 SoC launched
- 2019 - Acquired Cybersecurity certification 'Secure by Default' from UK government
- 2018 - Hanwha Techwin Vietnam manufacturing subsidiary established
- 2017 - Winner of IF Design Award, Red Dot Design Award
- 2017 - Wisenet V SoC and Wisenet X camera series launched
- 2015 - Hanwha Techwin is formed by strategic acquisition by Hanwha Group
- 2015 - Winner of Red Dot Design Award
- 2015 - Wisenet Lite series launched
- 2013 - Wisenet III SoC and camera series launched
- 2012 - Winner of Red Dot Design, CES Innovation Award
- 2012 - World's first 37X IR PTZ camera launched

1990 ~ 2011

- 2011 - B2C business began
- 2009 - Hanwha Techwin Tianjin and Shanghai subsidiaries established
- 2008 - Korea's first 37X optical AF PTZ camera launched
- 2004 - WinnerIII analog ISP chip developed
- 2001 - Hanwha Techwin Europe subsidiary established
- 1997 - World-class ultra low-light surveillance camera launched
- 1993 - Korea's first auto-iris lens for CCTV cameras developed
- 1990 - Video surveillance business established

Engineered in Korea

Hanwha Techwin's R&D(Research and Development) Center, is located in Pangyo Techno Valley, Gyeonggi-do, South Korea. The large R&D complex, which is focused on state-of-the-art technology and innovation, is also a home to many other of Korea's world leading companies. In the middle of the R&D hub, Hanwha Techwin is developing a variety of advanced technologies helping to drive the global video surveillance industry toward the future.

Core Technologies

Based on long-established optical and image-processing technologies, Hanwha Techwin has competitive edge not only in optical lenses but also in SoC cameras chipset development.

As technologies become more advanced and security solutions are leveraged across all areas of life, the role of security goes beyond just monitoring. It is now being utilized in many other ways in order to fulfill the growing market demand for built-in analytics capabilities and intelligent functionality. In order to provide agile response to such trend, Hanwha Techwin will strive to achieve technological advancement by developing deep-learning and AI solutions.

01. Optical design technology

Based on world class optical and image processing technologies, Wisenet provides high precision and resolution cameras.

02. SoC design technology

Outstanding level of SoC (System on Chip) design capabilities evident in our Wisenet SoC are also equipped with diverse analytics technologies.

03. Intelligent Analytics technology

Hanwha Techwin provides exclusive solutions for intelligent analytics thanks to its unique analytics algorithms.

Based on its solid core technologies,
Hanwha Techwin strengthens
its competitive edge for the future
by harnessing innovative technologies.

To ensure
24/7 reliability of our products,
we added smart manufacturing system
to our top technologies.

High-tech Powered in Vietnam

Hanwha Techwin's manufacturing subsidiary in Vietnam (HTSV) has been in operation since 2018 in order to expand its global production capability as well as to strengthen cost competitiveness. Through automation and smart systems, Hanwha Techwin has built sophisticated and fast-moving manufacturing lines producing all its product line-ups including cameras and storage devices. All products produced in HTSV go through a reliable manufacturing and quality assurance process and sold globally, these products represent 75% of Hanwha Techwin's total sales.

End-to-end Cybersecurity

Hanwha Techwin offers cybersecurity with the industry's highest levels of cybersecurity policy with secure boot/OS/storage, a signed firmware/open platform app, secure JTAG and more.

Hanwha Techwin established its own device certificate issuing system to embed certificates into the product not only in the development progress but also in the manufacturing progress.

- Hanwha Techwin Private Device Certification Root CA
- UL CAP, Secure by Default certified
- Secure Boot, Secure Storage, Secure OS
- Secure Open Platform
- S-CERT : Security Computer Emergency Response Team
Please contact S-CERT by e-mail (secure.cctv@hanwha.com)

※ UL CAP certified products: XNO-9082R, XNV-9082R, XND-9082RF, XND-9082RV, XNB-9002
XNO-8082R, XNV-8082R, XND-8082RF, XND-8082RV, XNB-8002

Next level of Cybersecurity

Innovating with excellence

WISeNET 7

New Generation PTZ

WISeNET PTZ PLUS

Innovation in Image Quality

- extreme WDR (Up to 150dB)
- Enhanced Noise Reduction technology
- LDC (Lens Distortion Correction)
- Multi-directional camera support with single license(Up to 4ch)

Innovation in Cybersecurity

- Hanwha Techwin Device Certificate System (Root CA)
- UL CAP, Secure by Default certificate
- Secure Boot, Secure OS, Secure Storage

Clearer image with Wisenet IR

- Monitor and Identify objects with optical 40x, 30x, 25x Zoom
- Up to 200 meters with Wise IR
- Enhanced Preset Accuracy $\pm 0.1^\circ$ Quick Pan, Tilt correction (within 1 second)
- Easy and Safe Installation with Compact Design and Lighter Camera
- AI Deep learning based Object Auto Tracking (Optional Target-Lock Tracking with right click)

* 4K XNP-9300RW, XNP-9250R, XNP-9250
 * 6MP XNP-8300RW, XNP-8250R, XNP-8250
 * 2MP XNP-6400RW, XNP-6400R, XNP-6400

WISENET P series AI Camera & NVR

Precise Object Detection & Classification with AI

Person

Face

Vehicle

License plate

Equipped with a powerful artificial intelligence (AI) engine that detects and classifies people and vehicles in real time, Wisenet P series AI cameras are designed to accurately capture the unique attributes of objects such as faces and license plates, whilst reducing false alarms caused by waving trees, video noise, and even shadows. It enables operators to quickly and efficiently search for specific events or objects with defined attributes.

AI Camera Series 4K
PNO-A9081R, PNV-A9081R,
PND-A9081RV/A9081RF,
PNB-A9001
* See more at P32

AI NVR Series
PRN-6410DB4/6410B4,
PRN-3210B4/3210B2/1610B2
* See more at P60

Wisenet AI Camera

Detect and classify objects real-time

VMS Plug-in for improved AI search

* Person, face, vehicle, license plate

Wisenet AI Search

Quickly search based on attributes

* AI plug-ins offer seamless integration with VMS from Milestone and Genetec

Identification

Visible image

2MP 4mm fixed focal
(H: 87.6°, V: 46.4°)

Thermal image
QVGA 4.7mm fixed focal
(H: 50.0°, V: 36.4°)

Detection

Temperature detection thermal camera

Compatible with Wisenet P series AI 4K camera

Complete COVID-19 Solution

Link to COVID-19 Solution

TNM-3620TDY

- Bi-spectrum : QVGA thermal & 2MP visible sensor
- Built-in 4.7mm fixed lens (thermal), 4mm fixed lens (visible)
- AI based face detection
- Temperature OSD
- MicroSD 1slot, PoE+/12VDC
- Two temperature detection modes
 - Estimated Body Temperature Mode : 30~45°C (86~113°F) / ±0.5°C (±0.3°C with blackbody)
 - Normal Radiometric mode : -20~130°C (-4~266°F) / ±5°C (≤100°C), ±20%(>100°C)

* Designed and Engineered in Korea/ Manufactured in Korea & Vietnam

Face Mask Detection

Protect staff and visitors by identifying uncovered or partially exposed faces with Hanwha Techwin's edge-based AI cameras.

- **High accuracy with AI cameras** (Detection accuracy is not affected by hats, glasses or head scarves)
- **Plug-and-play system, no dedicated analytic server required** (Edge-based feature)
- **Instant alarm** (Customizable audio alarm)

Occupancy Monitoring Application

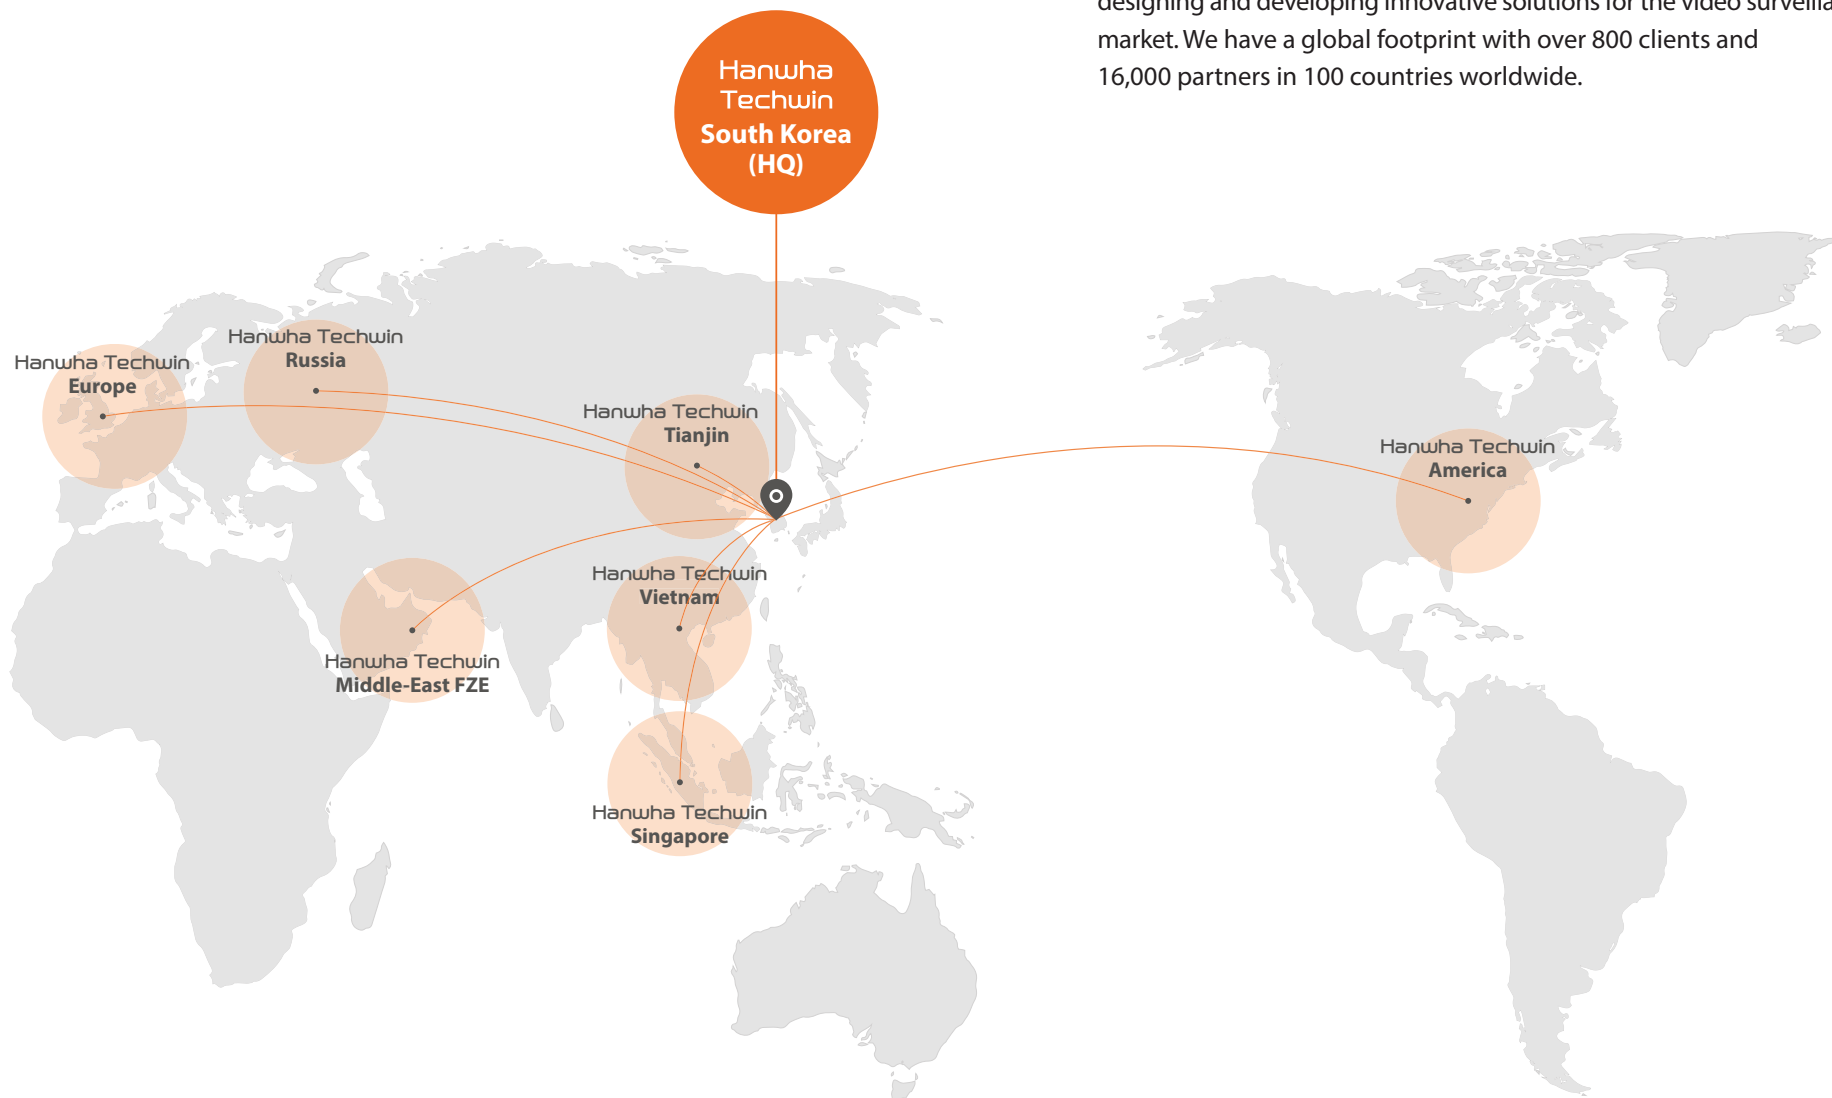

Keep your customers and employees safe while remaining compliant with the government's Social Distancing guidelines.

-  • When the building occupancy reaches the preset limit
A screen at the entrance turns to red, indicating customers to wait until someone leaves a building.
-  • When the building occupancy is below the preset limit
A screen at the entrance turns to green, allowing customers to enter a building.

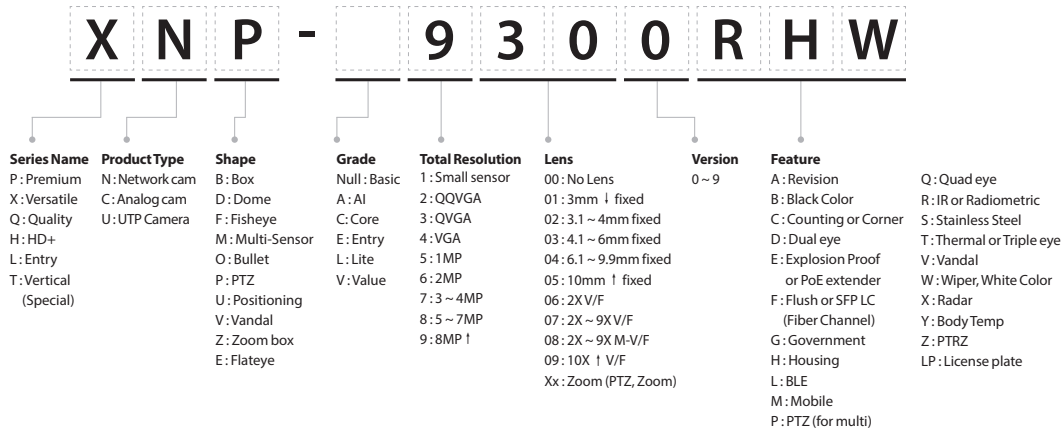

Hanwha Techwin Global network

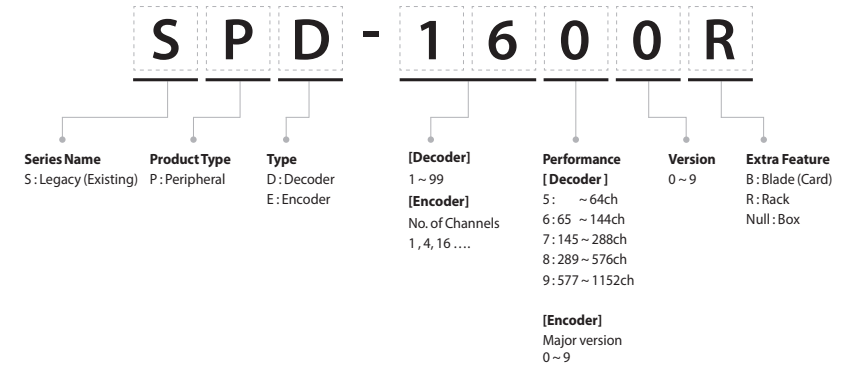

Hanwha Techwin is a Korean company with a long legacy of designing and developing innovative solutions for the video surveillance market. We have a global footprint with over 800 clients and 16,000 partners in 100 countries worldwide.

Established by global leading surveillance companies including Hanwha Techwin, Bosch, Milestone, Pelco, and Vivotek, the Open Security & Safety Alliance (OSSA) is a non-profit, non-stock corporation that brings together like-minded organizations in order to create a framework outlining a common standardized platform for security and safety solutions that is accessible for everyone. With the new hardware (cameras) and applications which fit to the OSSA platform, it aims to serve as a new standard to provide the efficient integration of IoT devices in various fields and the demand for big data utilization in a platform scale.

WISENET NVR

High resolution and great efficiency. Quick and precise search enabled by Hanwha Techwin NVR

Hanwha Techwin's Wisenet NVR allows recording and streaming of videos in super high resolution and enhanced the efficiency of event and channel management with the new UI. It also offers AI based quick and precise object detection and classification on top of smart search.

Up to 8K (32MP) high resolution video recording and streaming

Hanwha Techwin's Wisenet NVR can play and record high resolution videos of up to 8K.

Installation Wizard for easy auto recognition and setup

Local/web based installation wizard with a single UI provides easy and quick auto camera recognition and registration as well as configuration of each channel.

Easy installation and mobile event push

With QR codes in free Wisenet Mobile application, users can easily connect to video recorders without complex network settings. Event push alarms allow for swift identification and response to events at any time or any place.

Save cost, install easy PoE embedded NVR

NVR with built-in PoE switches further reduces cost and saves installation time by supplying ample power to cameras directly and detecting products automatically upon integration.

WISENET AI NVR

AI enhances accuracy and efficiency

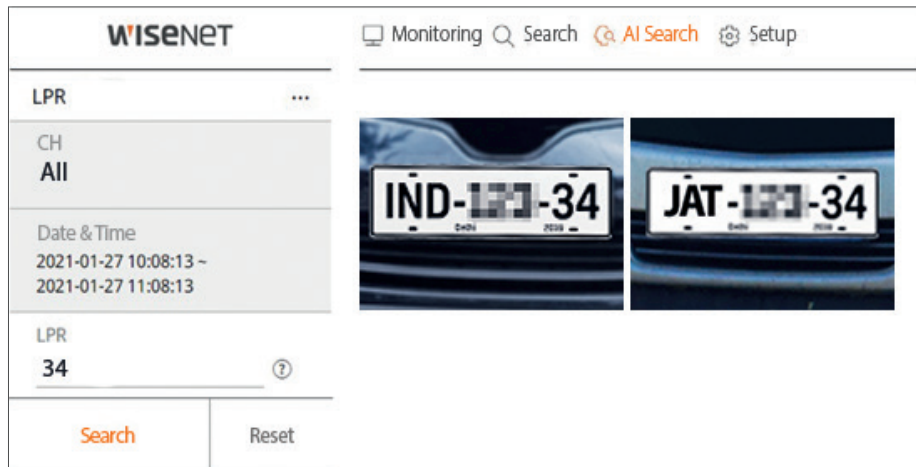

Wisenet AI NVR with AI algorithms provides accurate object detection/classification/search, increasing the efficiency of monitoring operation.

License Plate Recognition LPR (Search)

Through OCR (Optical Character Recognition) processing, the BestShot images of the license plates are converted into machine-readable text and numbers then stored in the Wisenet AI NVR in the form of digital data together with the images of license plates. Users can easily search license plates by typing in the numbers or characters of the license plate.

* Attributes : People (Clothing colors for top and bottom/ Wearing or carrying a bag) / Face (Age group, gender, mask/ glasses wearing) when integrated with Wisenet cameras, Vehicle (Types, colors) / License plate (Optical technology converts images into texts for storage, supporting search in text

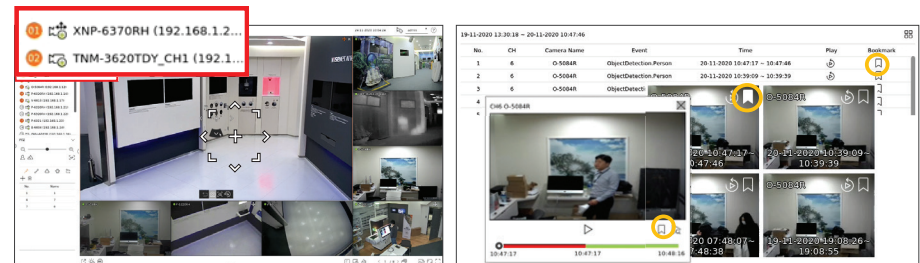

When managing multi channels, the Wisenet AI NVR greatly improves search efficiency by allowing users to preview images and videos by simply hovering mouse cursor on the timeline. Moreover, users can configure event and alarm for all channels within a single page.

Live monitoring and bookmarks

With Live Monitoring, users can configure the split mode as desired to view video footage in real time or find information such as system malfunction, overload or recording status for each channel. In the PTZ control mode, users can click arrow keys to move the PTZ in eight directions or zoom in to a certain area for more detailed monitoring. With Bookmark feature, users can designate up to 100 events for easy and quick event search.

Live monitoring and PTZ control

Bookmark setup and event search

Ideal choice for integrated monitoring

Wisenet SSM (Smart Security Manager) is a video monitoring software that maximizes the operational efficiency of Wisenet products (Network camera, Encoder, DVR and NVR). Hanuha Techwin provides video surveillance products and also in-house developed Wisenet software to monitor whole systems. It provides seamless system integration and central monitoring with cost effectiveness and reliability.

Cost Competitiveness

Offer major features of video surveillance in reasonable price

One time licensing cost (No cost for upgrades and maintenance)

High quality VMS features for the price

High reliability

Superb device compatibility offered as a VMS of device manufacturer

Integrated operation of H/W and S/W for efficient maintenance and management

Dashboard that can monitor device status

Convenient Operation

A single manufacturer providing unified user experience

Be the first to use the latest device features

Offer various solutions for user environments

AI video search

Connect Wisenet AI cameras to SSM for various search features adopting AI algorithms.

• Best Shot search using unique attributes

System operators can utilize SSM's 'AI video search' feature to easily search specific events in the video by designating distinctive attributes of objects such as persons, faces, and vehicles. If a user searches specific attributes such as red motorcycle or a man wearing short pants, the best still cuts (Best Shot) of the classified objects in the video will be retrieved. Best Shots can be used as forensic data for accident investigations, playing back video that includes Best Shots.

Wisenet SSM search
Support quick search using attributes

Best Shot
Object detection & classification (Person, face, vehicle, license plate)

Parking management solution

Connect ANPR cameras to Wisenet SSM for various parking management features.

• Vehicle management & event search

Wisenet SSM's parking management solution utilizes ANPR (Automatic number plate recognition) cameras offering real-time parking entrance/exit monitoring. Users can register and manage vehicles without additional parking management software, while simple search feature quickly searches and retrieves vehicle footage.

Stable monitoring

Wisenet SSM provides safe and stable monitoring environment through Failover.

• Vehicle management & event search

Failover priority (High, medium, never) can be configured for each channel. If a camera is failed, high priority cameras will be failed over at first. Users can record and save important footages without loss of data.

WISENET Retail Insight

Business Intelligence for your retail shops

- Advanced BI functions
- User friendly UI (Detail button)
- People counting (age, gender)
- Heatmap (Time-lapse)
- Queue management
- Customizable dashboard and report
- Compatible all Wisenet cameras (applied BI function)

Age, Gender Analysis

Wisenet Retail Insight not only counts the number of visitors in real time but also offers age & gender analytics, providing insightful information to store owners.

Owners can plan their marketing campaigns according to their customers' gender, age group.

People counting

Owners can get a glance of visitors trends by daily, weekly, and monthly. This helps owners to effectively manage manpower by knowing the busiest time of the store.

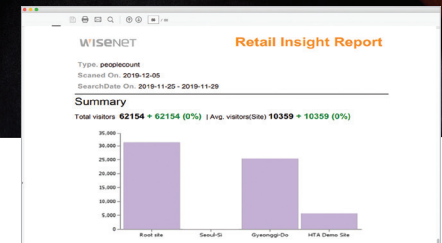

Heatmap (Time-lapse)

Heatmap feature tracks areas where customers linger in, providing information on popular/unattractive products. Owners can configure the time duration to collect data at certain times.

Queue management

Queue management is crucial for large retailers. The feature captures long waiting lines in real time and manages the queues in an efficient way, reducing customer complaints.

Regular automatic report

Wisenet Retail Insight offers reports on a daily, weekly, or monthly basis. Users can configure reports with the units they want, taking full advantage of the vast size of database and gaining information crucial in running retail stores.

- Long range card (3~5m)

Wisenet Access Software 2.0

Wisenet Access Software is access control management software integrated with Wisenet SSM for Total security solution. It is highly scalable up to unlimited doors system and has robust software architecture.

ACS Monitoring

Fire Alarm

Lift Control

Key Features

- Interlocking**

Control the locking of two or more doors
If one door is opened or unlocked, the remaining doors refuse access

- Mustering Report**

Provide information of the occupants in the fire grouping area based in Fire event

- Role Based Access**

Configure Role-based rules to provide access to a door (Multiple cards access)

- LDAP integration**

Synchronize Active Directory "Security group" users to have the same "Access Group", "Company", "Department" in WACS

- Lift access control**

Provide Access control for LIFT up to 12floors per output board (V300, X300)

- Guard Tour**

Provide Guard Tour : Sequential, Time Bound types

Configuration

Monitoring

Mustering Report

Click the Wisenet Toolbox on Hanwha-security.com

Choose product you are interested in

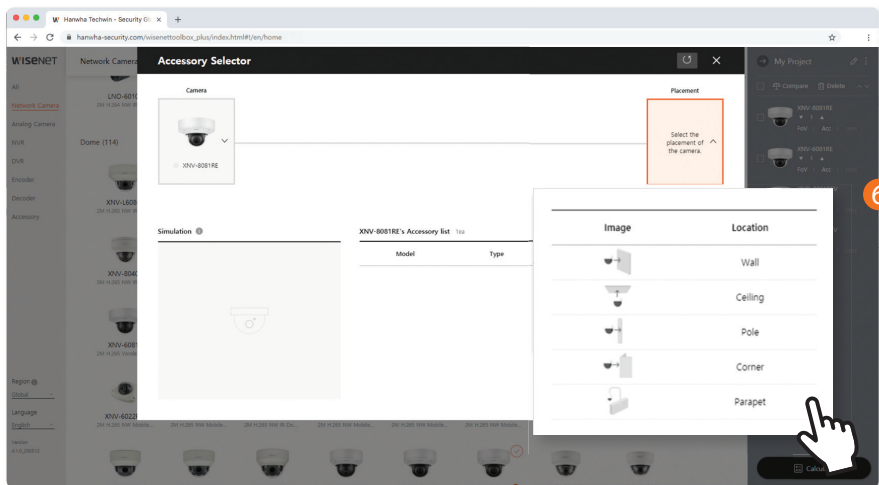

Select region and language
* Now only English available

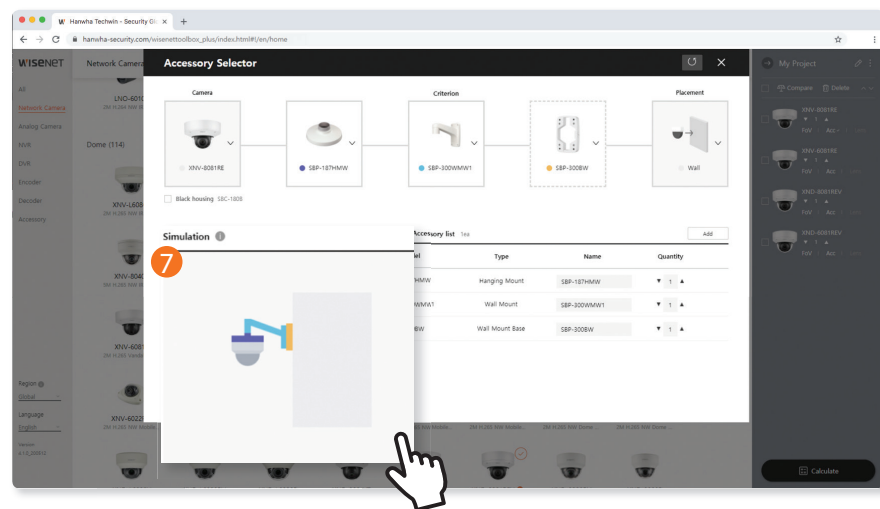

When you select cameras, they will be added on My Project

Click the Acc to find compatible accessories

Accessory Selector pops up. All compatible accessories are shown

Choose accessories then the simulation intuitively shows all connected accessories
