

WATCHGUARD FIREWALL SECURITY SERVICE BUNDLES

Standard Support

In addition to stateful firewalling, the Standard Support license includes centralized management, full VPN capabilities, 24x7 support that shows up, and built-in SD-WAN.

Available in 1 Year, 2 Year, 3 Year, 4 Year and 5 Year licenses

Basic Security

The **Basic Security Suite** offers essential network security features you'd expect from a UTM device, such as intrusion prevention, antivirus, URL filtering, application control, spam blocking, and reputation checks. Plus, it provides centralized management, network visibility, and round-the-clock support.

Available in 1 Year, 2 Year and 3 Year licenses

Total Security

The **Total Security Suite** offers all the features of the Basic Security Suite, plus advanced protections such as AI-powered malware detection, ThreatSync (XDR), improved network visibility, endpoint security, cloud sandboxing, DNS filtering, and real-time threat response directly from WatchGuard Cloud, our centralized management hub.

Available in 1 Year, 2 Year, 3 Year, 4 Year and 5 Year licenses

Included in Your Security Suite	Standard Support	Basic Security	Total Security
Stateful Firewall A stateful firewall tracks active connections to distinguish legitimate traffic from malicious attempts, providing enhanced security	✓	✓	✓
VPN A virtual private network (VPN) creates an encrypted, private connection over the public internet	✓	✓	✓
SD-WAN Software-Defined WAN (SD-WAN) automatically manages network traffic across multiple WAN connections according to defined policies	✓	✓	✓
Access Portal* A clientless VPN solution that enables safe remote access to essential web applications from anywhere	✓	✓	✓

Included in Your Security Suite	Standard Support	Basic Security	Total Security
Intrusion Prevention Service (IPS) IPS uses constantly updated signatures to monitor all major protocols, ensuring real-time protection against network threats		✓	✓
Application Control Controls access to applications by granting, denying, or limiting permissions based on a user's department, role, and the time of day, enhancing security and operational efficiency		✓	✓
WebBlocker Automatically blocks known malicious sites and uses detailed content and URL filtering tools to prevent inappropriate content, save bandwidth, and boost productivity		✓	✓
spamBlocker Provides real-time, continuous, and highly reliable protection from spam and phishing attempts		✓	✓
Gateway AntiVirus Detects and blocks spyware, viruses, trojans, worms, rogueware, and complex threats, including the latest variants of known viruses		✓	✓
Reputation Enabled Defense Cloud-based web reputation service that aggregates data from multiple feeds to provide real-time protection from malicious sites and botnets		✓	✓
Network Discovery Generates a visual map of all nodes on your network, ensuring only authorized devices are connected while detecting all open ports and protocols		✓	✓
APT Blocker Detects and stops the most sophisticated attacks, including ransomware, zero-day threats, and other advanced malware Learn more			✓
DNSWatch Blocks malicious DNS requests, redirects users to a secure, informative page, and promotes best security practices to prevent phishing attacks and reduce malware infections Learn more			✓

Included in Your Security Suite	Standard Support	Basic Security	Total Security
IntelligentAV** Automates malware discovery and classify current and future threats in mere seconds with AI-powered intelligence Learn more			✓
ThreatSync XDR AI-driven threat detection and response for advanced threats, including ransomware, supply chain, and vulnerability-based attacks Learn more			✓
EDR Core Continuous AI-powered endpoint monitoring for suspicious activity that detects threats in real time, and enables rapid investigation and response Learn more			✓
WatchGuard Cloud Securely stores firewall logs and reports for easy access, analysis, and compliance Log Data Retention Report Data Retention		90 Days 1 Day	365 Days 30 Days
Support Access to live personal support, video tutorials, training, and online tools to ensure continuous and dependable support for partners and customers	Standard (24x7)	Standard (24x7)	Gold (24x7)
